MEMORANDUM FOR THE RECORD:

1. Miss Evelyn Ians (LONDON SUNDAY TIMES) telephoned from New York at 1 o'clock EDT saying that she had a cable from her London office that they had a report that Allen Dulles would be visiting London. They wanted to know all about it.

2. I told her that we have a policy that Mr. Dulles's movements are not made public. At the present time he is actually on vacation but we would not say where he is. She wanted to know if we would send him a message asking if he were going to London, and what he was going to do in London if he went there. I said that we would not do that. She asked if we would say that he was overseas or in the United States. I said that we would not say where he is.
